RUSSIAN TROOPS.

Were Severely Defeated While Defending the East Flank at Liao Yang.

LOST TWO SEPARATE ACTIONS.

Fell Back From Yangze Pass But Are Holding Their Positions on Salmatsza Road.

The Battles Were Fought While the Thermometer Registered Over 110 Degrees Fahrenheit—Soldiers Suffered From Heat.

Liao Yang, Aug. 3.—After a fierce battle the Eastern Russian force has evacuated Yangtzuiling (six miles west of Motien pass).

St. Petersburg, Aug. 3.—It is officially announced that the Russians have fallen back from Yangze pass, but are holding their positions on the Salmatsza road.

Tokio, Aug. 3.—Gen. Kuroki has administered a severe defeat to the Russian forces which defended the Russian east flank at Liao Yang, winning separate actions at Yushulikzu and Yang Se pass. These two places are 26 miles apart, but the two actions were fought at the same time. The Russians held strong positions. The thermometer registered over 110 degrees Fahrenheit and the soldiers suffered cruelly from heat exhaustion.

At Yushulikzu the Russians had two divisions of infantry and some artillery, and they resisted the Japanese assaults vigorously.

Both attacks were begun at dawn on Sunday, July 31. At Yushulikzu the Japanese carried the Russian right and left wings; but on account of the strength of her main Russian position they were unable to press the attack. The two armies rested Sunday night, facing each other.

At dawn on Monday the Japanese resumed the attack and by noon they had dislodged the enemy and driven them four miles to Laoholing.

At Yangze pass also the Japanese were successful. Their artillery opened on the enemy and the infantry moved forward from Makumeza. The attack on the place was made at 1 o'clock on Sunday and by nightfall the Japanese were in possession of a majority of the Russian positions, although the enemy had resisted with determination. The Japanese forces passed the night in the battle formation and another assault was made on Monday at dawn. By 9 o'clock Monday morning Yangze pass and the surrounding heights had been captured. Gen. Kuroki explains the slowness of these actions by saying that the difficult topography of the battlefields made it impossible to secure good artillery positions, and that the great heat fatigued his troops.

The Russian force at Yangze pass was estimated at two and one-half divisions and four batteries of artillery. The enemy retreated toward Tanghoyen.

Gen. Kuroki reports the capture of some field guns, but the number is not given. The Japanese casualties are being investigated.

THREE DAYS' ASSAULT.

Estimated the Japanese Lost 20,000 Men Near Port Arthur.

Choo Foo, Aug. 3.—A desperate three days' assault on the inner defenses on the northern and eastern sides of Port Arthur has failed, according to advices brought by two junks which arrived here Tuesday. A Russian who escaped from Port Arthur via Pigeon bay on the night of July 29 states that the earth trembled under the terrific cannonading which began at 4 a. m. July 26 and ended during the night of July 28 when the battle ceased.

A Chinese who has arrived here on a separate junk confirms the Russians' statement that the Russian killed and wounded during the assault numbered between 5,000 and 6,000. The Japanese in their repeated assaults against the eastern forts on the hills, through barbed wire entanglements and over mines displayed fanatical bravery. They were mowed down by the hail of shells and bullets and the explosion of mines under their feet. Their losses are estimated at 20,000. The Russian declares that the Russians held all the eastern forts leading to Golden hill and that the Japanese, shattered and exhausted, retired to the eastward.

New-Chwang, Aug. 3.—A large depot of army supplies has been established by the Japanese at the old Russian railroad station. Two thousand Japanese troops are kept on guard there.

Washington, Aug. 3.—Chief Wilkie, of the United States secret service, announces the discovery of a new counterfeit \$10 national bank note.

ROUTED FUNERAL PARTY.

Bumble Bees Took Possession of a Church.

Flemingsburg, Ky., Aug. 3.—While a funeral service was in progress in the Vernon church, near Plummer's Landing, a swarm of bumble bees which had nested under the pulpit was disturbed, and, emerging from their quarters, caused a panic among the mourners. The officiating minister and the friends of the deceased hastily retreated from the sanctuary and were closely followed by the pallbearers with the casket, warding off the bees as best they could in their flight.

A number of the mourners and two pallbearers are reported to have been badly stung. However, they remained until the funeral service had been concluded in the church yard. The exact location of the nest can not be determined until the pulpit is torn away. The congregation dislikes to tinker with it at this time, the eve of a protracted religious meeting. Unless the bees remain under cover the meeting will probably be held in a grove.

OF PROMINENT FAMILIES.

I. W. Irving Wedded to Miss Mary E. Walhall, of Covington.

Covington, Ky., Aug. 3.—A wedding of more than usual interest was solemnized Tuesday night by Rev. J. W. Mitchell at his home in Scott street, this city. The contracting parties were I. W. Irving and Miss Mary E. Walhall, both of Covington. The bride is the accomplished daughter of Mr. and Mrs. R. N. Walhall, 1518 Garrard avenue, and a niece of Gen. Walhall, Mississippi, who later served with distinction in the United States senate.

The bridegroom also comes of a distinguished military family, being a second cousin of Gen. Stonewall Jackson. His father and the general were cousins and were both reared in the famous Shenandoah Valley, Va.

THE MUTILATED REMAINS.

Identified as Those of James Coomes, of Webster County.

Owensboro, Ky., Aug. 3.—The mutilated remains of a man who was found dead at the fair grounds has been identified as those of James Coomes, of Webster county, Kentucky. He was last seen going towards the fair grounds with Roy Green, a Negro, Sunday afternoon. The Negro has left the city. There is great indignation on account of the atrocity of the crime. After the man's head had been beaten into a pulp a stake was run through his throat into the ground and then nailed to the wall.

CHICAGO PACKERS.

Claim to Be in a Better Position Than at Any Time Since the Strike.

SAY TROUBLE IS NEARLY ENDED.

Despite These Declarations the Stock-Yards Are Filled With Cattle and Hogs That Are Unsold.

Tuesday Over 19,000 Sheep and 10,000 Hogs Were Re-Shipped and Undisposed of Stock Is Accumulating in the Pens.

Chicago, Aug. 3.—The meat packers whose union employees are on strike claim to be in a better position now than at any time since the struggle began. When asked for the packers' side of the situation Tuesday night, Arthur Meeker, general manager for Armour & Co., said:

"The strike may be said to be near an end. At the rate we are securing new employees it will be only a matter of a short time now until everything will be in normal condition with us once more."

Despite these declarations of the packers' representative the pens at the stockyards are filled with cattle and hogs that buyers make no bid for in the market. According to commission men and officials of the Union Stockyards and Transit Co., out of the live stock received Monday and Tuesday over 19,000 sheep and 10,000 hogs were re-shipped and unsold stock is rapidly accumulating in the pens. Twelve thousand hogs remained unsold Tuesday night and the prospect of large receipts Wednesday is causing the live stock handlers to fear a swamping of their facilities. According to commission men there are thousands of hold-overs in all departments of the yards and the cattle in the pens will not all be out of the way by Saturday night.

In the face of all this shippers are constantly forwarding stock to Chicago and the indications are that there will be a decided slump in the prices of live stock.

It is on this statement and what further information their own men have been able to secure that the strike leaders base their claims that the packers are still badly crippled, notwithstanding statements to the contrary. A considerable number of strike breakers who arrived in Chicago Tuesday were dissuaded from going to work by pickets.

In a statement given out by the packers Tuesday night it is asserted that out of the 25,526 union men who went on strike, 3,056 have returned to work. These desertions from the unions added to the new employees secured since the strike began, it is declared, makes the total number of men now at work 15,848.

THE CHICAGO STOCKYARDS.

Government Inspectors Are Investigating the Conditions There.

Washington, Aug. 3.—A description of conditions in the stockyards at Chicago during the strike now in progress there is expected to form an interesting feature of the report on the beef industry which will be made by the president to congress in response to the Martin resolution passed at the last session. Fifteen or twenty inspectors are in the field under the direction of the department of commerce and labor collecting information required by the terms of the resolution.

The inspectors have been engaged at this work since early in April and reports from some of them are daily expected at the department. The inspection has been conducted under the immediate supervision of James R. Garfield, the commissioner of the bureau of corporations of the department of commerce and labor.

BISHOP H. C. POTTER.

He Opened a Saloon in New York With Prayer and Singing.

New York, Aug. 3.—Modeled after the famous "Squirrel Inn," on the Bowery, Bishop Henry C. Potter Tuesday opened the new "Subway Tavern," at Mulberry and Bleeker streets, near police headquarters. Although this is a saloon, so far as the sale of intoxicating drinks is concerned, the principal address was made by the most noted Episcopalian minister in the United States, and the exercises were concluded by the singing of the old long meter doxology, "Praise God, From Whom All Blessings Flow," by the audience.

Columbus, O., Aug. 3.—"There is no difference between a place run like that and the other saloons of the country except that it may be more orderly than some of them. The element of evil is there as much as in other saloons if intoxicating drinks are sold. It is just as harmful upon its patronizing public as the others, and only differs from the average saloon in the attempt made to obey the laws and keep order," declared National Superintendent P. A. Baker, of the Anti-Saloon league, when asked Tuesday for his opinion of the saloon which had its formal opening Tuesday at New York, Bishop Potter presiding.

At her bedside when death came she was her son-in-law, Col. Samuel Reber, U. S. A., her son Sherman and her nieces, Miss Fitch and Miss Hoyt, of Washington. KIDNAPING CHARGE

Wm. Jensen and Wife and a Little Danish Girl in Custody in Chicago.

CHILD'S PARENTS ARE WEALTHY.

The Jensen Couple Had Demanded a Ransom of \$200,000 For Child's Return to Denmark.

For Two Years Danish Government Has Been Searching For Them and Had Detectives in Large American Cities Engaged.

Chicago, Aug. 3.—Elsie Gellert, a little Danish girl of five years, is in the custody of the federal authorities here. William Jensen and his wife, Mary, also are in custody charged with having kidnapped the child in Denmark.

While it is stated that the child's parents are wealthy and that a ransom of \$200,000 has been demanded for her return to Denmark, the Jensens insist that they are in rightful possession of the little girl. The case will be decided before United States Commissioner Foote Wednesday. For more than two years the Danish government has been searching for the Jensens and detectives in every large city of the United States have been looking for them. The chase ended Tuesday in Chicago, where they are located in North Halstead street. Geo. Bech, acting consul in New York for the Danish government, arrived from the east, armed with extradition papers and the correspondence between the governments.

The story told by the Danish agents is that M. Gellert, father of the child, is one of the richest men in Denmark, and makes his home upon a magnificent estate at Fredericia. In 1902 he had one daughter, Elsie, who was three years old. He had a valet of the name of Jensen, and there also was in the family a young woman nurse.

Mrs. Gellert was ill and the little girl was almost entirely in the charge of the nurse. The valet and the nurse disappeared, it is said, taking the child with them. No clew could be obtained to their whereabouts at first, but later it was found they had all landed in New York. The Danish authorities stirred up the American state department and for the last two years the search has continued without interruption.

The story as told by the Jensens is that they were prosperous trades people in Denmark. The child, they say, practically was deserted by her parents, and out of pity for the little one they volunteered to care for her. There was no adoption. The Jensens simply took Elsie, they say, with the mother's consent. Two years ago they came to America and brought the child with them. They deny that they have lived under assumed names, as the Danish officers charge, or that they have made any demands for money.

THE TEN LIVING QUESTIONS.

The New York World severely criticizes President Roosevelt's speech of acceptance, and especially the statement in which the President boastfully says: "We are content to stand or fall by the record which we have made and are making." The World says Roosevelt and his administration are the issues in this campaign,—with his record of extravagance, having increased the national expenditures to more than \$2,500,000,000, \$211,000,000 more than the expenditures during McKinley's term. Not once do the words "economy," "retrenchment" and "reform" occur in his speech of acceptance. It also charges the President with having deserted his convictions in favor of free trade and accuses him of toadying to the tariff protected monopolies. The World closes its strong article by presenting the following as the ten real burning questions of the campaign:

1.—ROUGH RIDER OR JUDGE?

Shall the people of the United States have for the next four years a personal or a constitutional government—the sovereignty of a party dictator or the sovereignty of the people—a Rough Rider or a Judge for Chief Magistrate?

II.—REFORM THE TARIFF.

Shall the tariff never be revised except with the consent and under the direction of its beneficiaries—by "the friends of its abuses, its extortions and its discriminations"—or shall it be revised in a judicial spirit by "the friends of the masses and for the common weal?"

III.—CURB THE TRUSTS.

Shall monopolies like the beef trust, controlling universal necessities of life, continue to receive the protection of a sheltering tariff, and enjoy still longer indulgence in the non-enforcement of anti-trust laws by reason of their enormous contributions to party campaign funds and their potential influence with party leaders?

IV.—THE ABUSE OF POWER.

Shall the action of the President in ridiculing himself of the one successful trust prosecutor in order to placate the corporations—in making his former Private Secretary and head of the Department of Commerce a campaign-fund solicitor from the very corporations he was appointed to "diligently investigate"—in appointing a railroad corporation official Secretary of the Navy, and a political agent of the Southern Pacific Railway to the head of the department to supervise and curb corporations (all to aid in his own campaign)—shall this "surrender of the Rough Rider" be approved by the people?

V.—NO CORPORATION RULE.

Shall the rule of corrupt corporations in politics and their controlling influence in Government be further enlarged and confirmed by continuing in power a party closely allied with them by the granting of special privileges in the tariff, by the election of corporation agents to Congress and to State offices, and through the reconstruction of the Cabinet to meet their views?

VI.—STOP THE EXTRAVAGANCE.

Shall we continue a policy of reckless extravagance, as evidenced by the expenditure of more than \$2,500,000,000 during the last four years, or shall we return to a reasonable economy?

VII.—CHECK THE CORRUPTION.

Shall corruption breed of too long a lease of power, as instanced in the half-disclosed postal frauds, in the land office scandals, in the pension abuses in the sale of offices and negotiation of corrupt public contracts by Senators Dietrich and Burton, in the purchase of a seat in the Senate by the Democrat, W. A. Clark, ratified by Republican Senators, and in the ascendancy and executive recognition of notorious corruptionists and professional spoilsmeat, be condoned and continued?

VIII.—NO "BIG STICK" BLUSTER.

Shall the attitude of the United States towards foreign nations be that of a bully with a "big stick," and a chip on his shoulder, or shall we return to the policy of Washington and Jefferson—"Peace and friendship with all nations, entangling alliances with none"—minding our own business and expecting other nations to do the same?

IX.—WHAT WILL THE FILIPINOS DO TO US?

Shall we continue the malevolent effect upon ourselves of so-called "benevolent assimilation" in the Philippines until it is too late to withdraw from that deplorable and un-American adventure in Asiatic colonialism—which becomes all the more dangerous the more we impose upon them the veneer of our civilization—and until the hybrid and forever alien races of those islands shall be incorporated into our body politic, to cast the die in our national conventions, as the delegate from Hawaii did at Kansas City in 1900; to participate in our elections, to sit in our Congress and eventually to help to govern those who now by force impose upon them government without consent and taxation without representation?

X.—"LET US HAVE PEACE."

Shall we, 40 years after the end of the war, and after a complete reconciliation of the once hostile States, tear asunder by a revival of the sectional issue the bonds of fraternity and concord—and this when the people of the South have just secured the nomination of a conservative and sound-money Democrat for President, and have given repeated instances of the strongest national and patriotic feeling?

HANDSOME HOME BURNED.

The Residence of Mr. B. D. Owens Destroyed By Fire Last Evening Between 8 and 9 O'clock.

The handsome residence of Mr. B. D. Owens of Crab Orchard Farm near Washington was destroyed by fire last evening between 8 and 9 o'clock, together with practically all the furniture, a lot of costly bric-a-brac and the household goods.

The supposition is that the fire was caused by the explosion of a coal oil lamp in an upper room, as the second story of the building was in flames when the family discovered the fire.

The building was a modern two-story frame residence and the loss is placed at \$5,000, with some insurance.

This is the second building on the site destroyed by fire, as the old residence was burned some years ago.

Their many friends extend sympathy to the family in their misfortune.

EAST END SEWER.

Bids Rejected by Council and the Work Will be Done by the Internal Improvement Committee.

The City Council met Tuesday evening to consider the bids for the construction of the sewer in the Fifth and Sixth wards. Evan Evans and Thomas P. Strack & Co., both of Cincinnati, were the only bidders.

City Attorney Wood, a member of the committee to whom the bids were referred on Monday evening, presented a report showing what the cost of the sewer would be under the lowest bid, that of Strack & Co. The amount was about \$13,000. He also presented the estimate as figured out by the City Engineer Mr. Oliver Hord, the amount being about \$13,000.

After a discussion of the matter, a motion by Mr. Ficklin was unanimously adopted rejecting all the bids.

On motion of Mr. Ficklin the Internal Improvement Committee, with the Mayor, City Attorney and City Engineer added, was then authorized to purchase the necessary material and proceed with the work of building the sewer. The action of the Council was unanimous.

The Ways and Means Committee was authorized to pay the interest due, \$1,450, on the city debt.

Property owners on Second street between Wall and Short were ordered to place curbing in repair preparatory to the reconstruction of that block of the street.

The Hauke Brewing Co. was granted permit to add another story to their stable near the corner of Third and Wall.

THE CROP OUTLOOK.

Corn Promises a Large Yield and Tobacco Has Improved and is Doing Well. Rain Would Help Things.

Weekly Bulletin of Weather Bureau Aug 1st. The first of the week was quite cool, but during the latter part the temperature was a little above the normal. There was a fair amount of rainfall, but coming in local showers, it was not well distributed. Some localities are complaining of drought, which appears to be most severe in some of the north-central counties; other portions of the State are generally in good condition.

Wheat threshing is nearly completed. The crop has turned out much better than expected in yield and quality. The acreage was less than usual. Tobacco has improved and is generally doing well. There is complaint of bronzing in some localities, but the area affected is small. The early fields are being topped. Corn is in first-class condition and promises a large yield. Oats are about all harvested and a fair crop has been secured in good order. Potatoes and garden vegetables are very fine. Hay cutting is about over; the crop is below the average in yield and rather weedy in some sections.

Apples are falling badly and are deteriorating in quality. Peaches are scattering, some localities reporting a full crop and others none at all.

THE PUBLIC BUILDING.

Four Bids for its Construction, But All Exceed the Available Balance of Appropriation.

Bids were opened in the Treasury Department Monday for the construction of the Maysville public building, for which \$50,000 was appropriated by Congress. All the bids exceeded the available balance, hence the plans will either be modified or the bids rejected and Congress asked to appropriate an additional sum.

The bidders were: Clark & Howard of Lexington, Ky., \$45,837; George Moore & Son of Nashville, Tenn., \$45,879; King Lumber Company of Charlottesville, Va., \$47,864; George O. O'Toole of Toledo, \$46,500.

Clark & Howard's bid, the lowest, is only about \$2,000 above the balance available for the erection of the building.

MARRIED THIS MORNING.

Handsome Maysville Couple Stole a March on Their Friends—Wedded at Covington.

Rev. Joe H. Hopper closed a most delightful meeting Sunday afternoon at Grier's Creek Church, in Central Kentucky, where he has been assisting Dr. Rout. There were seventeen professions and fourteen additions to the church.

"Uncle Joe" was seventy-five years old the 22nd of the past month.

Alonzo Spurgeon, aged twenty, a former resident of Maysville, met a horrible death Monday at Crane & Co.'s saw mills in Cincinnati. He was employed in the mills and while joking with some of his fellow-workmen, he was caught by one of the saws and almost instantly killed.

His remains were brought here this morning and buried in the Maysville Cemetery.

Born to the wife of Mr. James Pardon, Tuesday afternoon, a fine son.

Gem Choppers For Sale in Maysville by

WE DON'T KNOW WHY

We sell more Food Choppers at this time of the year than any other, but we do. Guess it's on account of the fruit and vegetable season. However, there is no time during the entire year that a Gem Chopper in the kitchen is not seasonable. Takes the place of the old-fashioned chopping bowl and knife—does better work, without noise—without tearing, squeezing, mashing or grinding. It saves time and adds to the pleasure of housekeeping.

The motive was robbery. They killed Hodges with an iron brace after he had caught them digging up a pot of money in the yard. They then killed Mrs. Hodges and the little girl by striking them in the head with a lamp. The babies were killed before the house was fired.
